- Taman Lip Sin, Lengkok Nipah, Gelugor, Penang

PROFILE

Highly motivated Computer Science student from UTAR seeking a challenging internship opportunity. I am a fast learner with strong foundational knowledge in multiple programming languages like python, C++ ,HTML, PHP etc. Eager to apply analytical and problem-solving skills in a professional environment and contribute effectively to a dynamic team.

SKILLS

- Programming Languages:
Python, Java, C++, PHP,
JavaScript, Kotlin, HTML etc
- Frameworks & Libraries:
React Native, Flask/FastAPI,
Room Persistence Library,
YuNet, ArcFace
- Databases & Tools:
PocketBase, MySQL, SQLite,
Figma, Microsoft Office, AI
Agent

LANGUAGES

- English
- Chinese
- Malay
- Hokkien

REFERENCE

Mr Tou Jin Yi

Position: Lecturer

Relationship: Academic Advisor

PROJECT EXPERIENCE

Final Year Project: Face Recognition Attendance System | 2025 – 2026

- Developed a React Native mobile app with a Python backend for real-time attendance tracking.
- Integrated YuNet for face detection, ArcFace for deep-learning face recognition and Anti-spoofing model to ensure anti-fraud.
- Designed a PocketBase database schema to securely manage user profiles and biometric logs.

Waste-to-Wealth Mobile App: CharityLink | 2026

- Built a community resource-sharing mobile app featuring peer-to-peer item posting and real-time chat modules.
- Designed application layouts, interactive user flows, and original brand logos in Figma.
- Configured a lightweight backend with firebase to handle user authentication and immediate data states.

Student Co-curricular Management System | 2026

- Co-developed a full-stack university web application using PHP and MySQL to manage student activities.
- Created relational database schemas and server-side CRUD operations to handle dynamic data rendering.

Stock Management System in Java | 2025

- Programmed a retail inventory application in Java to track and manage appliance stock levels.
- Applied Object-Oriented Programming (OOP) principles to ensure clean, reusable, and modular code architecture.

Student Exam System in C++ Software Developer | 2024

Built a CLI system in C++ supporting student registration, course selection, and exam slot booking.

Implemented administrative features for secure course management, updates, and record deletions.

WORK EXPERIENCE

Part Time Promoter | Hei Hwang Food Industries (M) Sdn.Bhd. **JAN 2026 - FEB 2026**

- Engaged customers to promote Chinese New Year Hampers, effectively explaining products and addressing inquiries. To continue improve communication and interpersonal skills through diverse customer interactions.

Part Time Promoter | Yin Onn Herbs **JAN 2025 - FEB 2025**

- Engaged customers to promote herbal products, effectively explaining features and addressing inquiries. Developed strong communication and interpersonal skills through diverse customer interactions.

Sales Assistant | TF Value Mart **MAY 2022 - AUG 2022**

- Systematically organized and managed merchandise for optimal display and inventory control.
- Applied logical troubleshooting skills to quickly resolve customer inquiries and operational issues, maintaining service flow.

EDUCATION

**UNIVERSITI TUNKUABDUL RAHMAN BACHELOR OF
COMPUTER SCIENCE (HONOURS) 2024 - PRESENT CURRENT
CGPA: 2.82**

**UNIVERSITI TUNKU ABDUL RAHMAN FOUNDATION IN
SCIENCE 2022 - 2023
CGPA: 2.54**
